112	2	Ravi	BDA	B001	2024-05-01

(1 rows)

```
cassandra@cqlsh> SELECT Stud_Name, Book_Name, Counter_value
... FROM Library.Library_Info
... WHERE Stud_Id = 112 AND Book_Name = 'BDA';
```

stud_name	book_name	counter_value
Ravi	BDA	2

(1 rows)

```
cassandra@cqlsh> COPY Library.Library_Info TO '/tmp/library_info.csv'
WITH HEADER = true;
```

3 rows exported.

```
cassandra@cqlsh> !cat /tmp/library_info.csv
stud_id,counter_value,stud_name,book_name,book_id,date_of_issue
112,2,Ravi,BDA,B001,2024-05-01
113,1,Sneha,Cloud Computing,B002,2024-05-02
114,1,Ajay,Data Mining,B003,2024-05-03
```

```
cassandra@cqlsh> COPY Library.Library_Info (Stud_Id, Counter_value, Stud_Name,
...      Book_Name, Book_Id, Date_of_issue)
...      FROM '/tmp/library_import.csv'
...      WITH HEADER = true;
2 rows imported.
```

Verify:

```
cassandra@cqlsh> SELECT * FROM Library.Library_Info;
(output shows all 5 rows including imported ones)
(5 rows)
```
